Transboundary Parks ...following nature's design

Transboundary cooperation between protected areas makes a significant contribution to the conservation of Europe's natural and cultural heritage. Such cooperation also promotes international peace and understanding and plays an important role in the development of a common Europe.

Criteria defined by the "Transboundary Parks - following nature's design" initiative set the standard for quality transboundary cooperation in Europe.

To meet the standard, partner protected areas must demonstrate strong cooperation in specified areas of their work. Their cooperation must be based upon a solid, transparent and equitable framework, which facilitates the exchange of information and experience and the joint development and implementation of conservation actions. The partner protected areas must also demonstrate how they involve local communities in the cooperation and how they acknowledge and respect the national sovereignty and socio-cultural differences of all cooperating parties.

The EUROPARC Federation is delighted to present this certificate to the:

BOHEMIAN SWITZERLAND National Park (Czech Republic)
and

SAXON SWITZERLAND National Park and Protected Landscape Area (Germany)
and

ELBE SANDSTONES Protected Landscape Area (Czech Republic)

in recognition of their successful fulfilment of clearly defined quality criteria for transboundary cooperation in Europe and their ongoing exemplary efforts in this field.

Thomas Hantsch
President
EUROPARC Federation
Genk, Belgium, October 2012
